Gateway/400 Group

P. O. Box 50267   St. Louis, MO 63105   (314) 768-9720

May 3rd , 2004

Dear Group Member:

The PC Subgroup of the Gateway/400 group will meet next on **Tuesday, May 25th, 2004 from 8:30 AM to 11:30 AM** at the **Graphic Communications Banquet Facility, located at 105 Progress Parkway in Maryland Heights, MO 63043.**

The topic for this session will be:
IBM (powered by Apache) HTTP Server - How to get started, what it can be used for.

Apache HTTP Servers dominate the deployed base of Internet web servers. Come and find out how to get started using
Apache on your AS/400, iSeries, i5 (or other platforms) and discuss what Apache HTTP servers can be used for. Come
learn and share how you are using Apache.

This session will be presented by Craig Jacquez, from Direct Data Corporation.

Craig has been working on IBM midrange systems since the late 70's. Working with application development, networking and systems integration across many platforms. Craig holds the following technical certifications: IBM's eServer-Certified Specialist for Technical Solutions, Client Access, Websphere, Domino, eBusiness and Linux.

We look forward to seeing you on May 25th before the summer break.

Sincerely,
Barbara Brown
Director of Technical Services
Alliance Systems & Programming, Inc.
