

# Gateway/400 Group

P. O. Box 50267 St. Louis, MO 63105 (314) 768-9720

November 11, 2003

Dear Group Member:

The PC Subgroup of the Gateway/400 group will meet on **Tuesday, November 25<sup>th</sup>, 2003 from 9AM to 11 AM** at the **IBM Maryville Customer Center**.

The topic for this session will be:

## **Websphere Development Studio Client for iSeries**

**With Sandy Worthington**

WebSphere Development Studio Client for iSeries is a GUI development environment for all aspects of application development. It is based on Eclipse, the most popular open source Integrated Development Environment (IDE). Of course it includes the WebFacing tool and tools for Java and Web development. There is also support for editing and debugging RPG, COBOL, C and CL – as well as database development...and more. This session will review the tools and features available in Websphere Development Studio Client for iSeries and offer advice on how to get started with this great new development suite... and by the way, if you have version 5 compilers, you have this tool! It's included at no extra charge.

### **Our speaker for this session will be Sandy Worthington.**

Sandy has been developing projects for both PCs and IBM midrange systems since 1985. She has prepared and presented technical training for Ralston Purina, as part of her own business and under Alliance Systems & Programming. Sandy's up-beat, professional style makes her a favorite wherever she goes!

Below are some topics being considered for future meetings. We would appreciate your feedback on these or suggestions for others.

**Windows on iSeries – the real story**

**XML Extenders**

**Websphere Application Server Implementation Tips**

**Anatomy of a Websphere application**

We look forward to seeing you on the 25<sup>th</sup> !

Sincerely,  
Barbara Brown  
Director of Technical Services  
Alliance Systems & Programming, Inc.
